

Location of Kinnickinnic River Watershed Assessment Points

Assessment Point	Stream	Downstream Terminus of Tributary Area*
KK-1	Lyons Park Creek	Upstream of Lyon's Park Creek's confluence with the mainstem, at the western edge of Jackson Park Drive Parkway
KK-2	South 43rd Street Ditch	Confluence of South 43rd Street Ditch with the mainstem, at 43rd Street at the north end of Jackson Park
KK-3	Kinnickinnic River Mainstem	Upstream of Wilson Park Creek's confluence with the mainstem, at approximately 30th and Oklahoma
KK-4	Wilson Park Creek	Upstream of Wilson Park Creek's confluence with Holmes Avenue Creek, a block west of Howell Avenue
KK-5	Holmes Avenue Creek	Upstream of Wilson Park Creek's confluence with Holmes Avenue Creek, a block north of Layton Avenue
KK-6	Villa Mann Creek	Approximately 1,500 feet upstream of Villa Mann Creek's confluence with Wilson Park Creek
KK-7	Cherokee Park Creek	Upstream of Cherokee Park Creek's confluence with Wilson Park Creek, about 1/4 mile northwest of the Loomis Road / 27th Street intersection
KK-8	Wilson Park Creek	Upstream of Wilson Park Creek's confluence with the mainstem, at approximately 30th and Oklahoma
KK-9	Kinnickinnic River Mainstem	Approximately 1,000 feet downstream of the confluence of Wilson Park Creek and the mainstem
KK-10	Kinnickinnic River Mainstem	Near Upstream Limit of Estuary

*Note: Water quality reported at each assessment point is representative of corresponding modeling reach identified in factsheets and is not only influenced by the tributary area of each modeling reach but also the entire tributary area upstream of the modeling reach.
